We think E. P. U. is wrong to attack the rampant animus of the British press against Woo Afoo and 2 others, -Highway the Federal cause. We do not go so far as to say that the British people are so well Christinnised as to present a second cheek to be struck; but we say that with excasable frailties upon them, they have been provoked to the animus which E. P. U. laments, by the abusive epithets, the taunting sneers, the bitter reproaches, the frantic threats, which for years have formed the theme of the United States press, stump and forum, and which our opinion forms the guiding principle of every American politician of the day. The British people and press have been provoked to retaliate we admit, and although they have kept within bounds, they have retaliated most effectively. The anger of our cousins is simply ludicrous, E. P. U's. simplicity in assuming the

We feel more inclined to the belief that by continuing the fight in the manner she is doing, she is extinguishing her national life. There is a county in Ireland called Tipperary, where the people are so ungovernable that even now real estate is not worth half the price it would be in other counties. Should the North acknowledge the independence of the South, two neighbouring well organised governments would be the result, with slavery to keep them asunder, and with commercial treaties to make mutual

intercourse profitable. Should the North subdue the South, the latter may become a Tipperary on a grand scale, as General Scott prognosticated, requiring 300,000 men to keen it down. Under such state of things, no capitalist would invest in the country, and without capital, the South would become a desert. We hope that our correspondent's version

of the Saxon's affair is correct. We agree with him entirely on the cargo having been thes. taken from a Federal merchantman-also on the coal store being meant for Confederate cruiseirs. But we fear the territory is British and we cannot think that Gray's death was accidental. Capt. Shephard of the S con distinctly states that Captain Ballwin of the Vanderbilt placed the officer who fired the pistol under arrest, and that all his fellow officers cut him. THE Provisional Committee for promoting the erection of a City Hall in Hongkong, desire to report the progress that has been made, up to the close of the present year, in furthering the

object for which they are associated. The principal difficulty connected with this undertaking has been to procure a site that should he at once suitable for the purpose, and in the gift of Government; it being obvious that the present high value of Land within the limits of the City made it impossible that any sum of money, which the Committee could expect to command, would prove adequate if ground had to be

An application for a site at the Western Corner of the Parade Ground, immediately under the Office of this paper will be rewarded. Messrs, A. proposed Building. The space which is it confidently hoped, will he thus placed at the disposal of the Committee Fancy Flannels, Scotch Cashmeres, Ingrain Mewill enable them to curbrace in their scheme the rinces Cashmyrian. Alipines, Gauzes, Damask. following accompdation :--

V. A permanent Theatre, which will encourago visits to Hongkong by musical and histrionic artists from other parts of the East, and will ab-

viate the necessary heavy and unsatisfactory out-

lay which the frequent erection of a temporary Theatre has hitherto entailed. The remainder of the space will be absorbed by the Harbour Master's Office, which will be removed from its present position to one appropriated for it in the North Eastern angle of the intended. building, in accordance with the proposal submitted by the Committee to Government for permission to use the site which that office at present

partially occupies. Finished plans have not yet been prepared, and it is proposed that, at the proper time, they should be thrown open to competition, but the Committee have satisfied themselves that the space they. have applied for will be ample for carrying out the various objects enumerated above on a scale which will render the intended edities an ornament to the City, a convenience to the public, and in every way worthy of a Colony wnose rapid growth and progress are the surest proofs of its wealth, enterprise and prosperity.

The preency of the want that exists for a Public Building of this nature need scarcely be diluted on.
